CLASSIQUE

Round or square 19mm hollow tube without spears and a level top.

Classique F & S

Square tubes with pressed (flattened) tops which are cut to create a spear.

LOOP-TOP

Round hollow tubes bent to form a hairpin shape.

KENSINGTON

Spear topped hollow tubes with alternating loop top pickets

IMPERIAL RING

Round or square pickets with double top rails. Picket going through middle rail with a ring between each picket.

TUDOR

Round or square pickets alternating with a ring between each picket and a choice of spear on pickets

COLONIAL - 2 Rail

High and low pickets with choice of spears. Pictured with optional Sandstone-look pillars.

COLONIAL - 3 Rail

Round or square pickets with a choice of spears.

FEDERATION

Pickets of uniform height with a decorative spear.

GEORGIAN

Pickets are shortest in the middle and longest at the ends of each panel.

VICTORIAN

Pickets are of varying length with the shortest at the ends of the panels and longest in the middle.

CUSTOM DESIGNS

Mix and match designs to create your own unique look

All panels on this page have steel rectangular hollow pickets and resemble traditional

HERITAGE

Pickets have a shaped or flat top but are of uniform height between posts.

EDWARDIAN

Pickets have a flat or shaped top but vary in length with longest in the middle and shortest at the ends of each panel.

JACOBEEAN

Similar to the Edwardian but with an opposite curve.

HORIZONTAL

The picket fence for the modern look.

FENCEBOND

BHP COLORBOND® steel sheeting and capping with galvanised metal posts and rails. This fencing is coloured on one side only.

METLINE

COLORBOND® steel fence with optional lattice top. This fence is exceptionally strong and is constructed to look alike on both sides, colour included. Traditional fence posts as normally used with similar COLORBOND® fencing systems are not required. Panels are 2370mm long.

ESTATE WELDMESH

Panels use 5mm wire and are either 900mm or 1200mm high & 2400mm long.

AQUATIC WELDMESH

Panels are 3000mm long by 1270mm high and comply with AS 1926.1 1993 for domestic pool fencing.

BALUSTRADE STYLE (Steel & Aluminium)

Can be used for sundecks or as fencing in 2 rail or 3 rail format. Standard heights are 1000mm, 1200mm, 1500mm & 1800mm.

ABRA Aluminium Balustrade

A versatile system that will accommodate either glass panels or aluminium tubing. Standard heights 1000mm, 1200mm, 1500mm & 1800mm. The type of balustrade construction may vary from the illustrations provided.

HANDI-FENCE

The Ultimate in Handy Fencing

Handi-fence was designed to be easily installed by the home handy man but with the style, finish and quality of more expensive custom made steel tube fencing. The simple yet innovative design enables the standard panels to follow the natural contour of the ground without the unsightly gaps under the fence and necessity to step the panels if the ground slopes. The design also allows for cheaper replacement of pickets if they are damaged, thereby helping your fence to look better for longer.

Durability

Handi-fence is built with long lasting quality in mind. Manufactured from strong steel tube, it is coated inside and outside with zinc, a proven corrosion resister, and finished (if you choose) with a high quality, oven baked, powder coating. Good looks that will resist chipping and rust for many years to come.

Safety

Handi-fence is the ideal safety fence for young children. The designs are difficult to climb and comply with pool fencing regulations (AS 1926.1 1993) for heights over 1200mm high. Simply, it is the best way to go when good looks and safety are required.

Style

Handi-fence is available in 12 styles, 6 heights and any of approximately 100 colours to suit any surroundings or décor you may desire. It is even possible to have a multi-coloured fence with this unique fencing system. There are also numerous variations possible to the standard designs (spears, spacing etc) to individualise your fence and add character to your property.

Specifications

Pickets: 16mm round, 19mm round, 19mm square or 50 x 10mm and 75 x 16mm rectangular @ 115mm centres.

Rails: 40 x 40mm Handi-fence rail.

Posts: 50mm square and 65mm, 75mm, 90mm or 100mm square gate posts.

Standard Heights: 900mm, 1200mm, 1500mm, 1800mm, 2100mm or 2400mm.
